

PACE[®]M

Rig Series Highlight

The PACE[®]-M fleet is optimized for extended reach laterals, greater tripping speeds and maximum power.

Features

Advanced Walking Capabilities

Ideal for large, multi-well pads, the PACE[®]-M rigs feature efficient, more advanced walking capabilities for multi-well pad drilling.

Safer, Efficient Operations

Reduce manual handling activities with enhanced safety features such as:

- Walking shaker skid minimizes flow line handling between wells
- Accumulator and HPU skid are mounted to the substructure and walk with the rig
- Integrated catwalk with walking system eliminates the need to reposition equipment between wells on a pad

Automation and Controls

To further enhance drilling performance, the SmartROS[®] rig operating system features intuitive, icon-based navigation screens that adjust based on current rig activity. Integrated with advanced downhole tools, the control system enables the automation of repetitive tasks and alerts the driller of any potential issues.

M-Series Fleet Specifications

Feature	PACE M		
	M750	M800	M1000
Drawworks	2,000 HP	3,000 HP	3,000 HP
Mast Rating	750,000 lbs	1,000,000 lbs	1,000,000 lbs
Setback Capacity	640,000 lbs 25,000 ft @ 5" DP	750,000 lbs 30,000 ft @ 5" DP	900,000 lbs 35,000 ft @ 5" DP
Substructure	Swing-Up, Hydraulic	Swing-Up, Hydraulic	Swing-Up, Hydraulic
Walking Capacity	Walking System 150 ft Minimum – More Available	Walking System 150 ft Minimum – More Available	Walking System 250 ft
Top Drive	500 Ton AC High Torque – 51,400 ft-lbs Torque Rating		
Engines / Generators	4 x 3512 With 1,365 kw Generator		
Mud Pumps	3 x 1,600 HP AC		
Pipe Handling	Remote Operated Wrench – 80,000 ft-lbs minimum – TM100 and TM120 Available Remote Operated Hydraulic Catwalk Rotating Mousehole
