Supersede All Screw-Pin Anchor Shackles with Bolt-Type Anchor Shackles			

BACKGROUND INFORMATION:

It was noted that several shackles TESCO currently utilizes throughout the product offering are of the screw-pin anchor type. Screw-pin anchor shackles do not include secondary retention for the pin (Figure 1), therefore, they do not comply with TESCO’s overhead equipment policy. TESCO is acting to supersede all screw-pin anchor shackles with bolt-type anchor shackles that include secondary retention (Figure 2) to comply with our overhead equipment policy.
