

TECHNICAL BULLETIN TB-007

From: Tesco Products-Applications

Date: June 10 2002

Re: Linde Hydraulics Product Line

This bulletin is to inform you that **Linde Hydraulics** has discontinued production of the **BPV130** product line. Their replacement pumps and parts are not compatible with the Tesco Hydraulic Systems so unfortunately Tesco will, as of **Dec 31 2002**, no longer be able to offer support or repair for this product.

Tesco has designed a package to enable our customers to convert their equipment to the **Sauer-Danfoss** system when major service is required. This will ensure that Tesco will be able to offer full hydraulic support and part replacement in the future. The packages are complete and can be installed by Tesco Service Personnel on location if required. **Sauer-Danfoss**, originally marketed to Tesco as **Sauer-Sunstrand**, is a superior product which Tesco has field tested on 6 Units in various locations Worldwide over the last 5 years with minimal maintenance or pump replacement. The 90 Series pump is now the OEM product for all Hydraulic Topdrive systems and Rigs.

Price and availability of update packages available upon request.
