

PACE[®]-X

Rig Series Highlight

The PACE[®]-X is a cutting-edge rig design optimized for drilling multiple wells on a single pad in the Shale Plays. Capable of moving in any direction over existing wellheads, the PACE[®]-X features a modular design and Side-Saddle[®] substructure, enabling scalability and delivering unparalleled performance.

Features

Reduced Flat Time

- Large rig floor with below-deck storage enables an efficient and safe rig floor that readily accepts storage of a casing running tool and other handling tools
- AC Commander™ Drawworks[®] with two 1,500HP motors allow faster block speed
- Set-back capacity of over 25,000 feet-of 5 1/2" inch drill pipe, eliminates lay down of drill pipe

Reduced Move/Skid Time

The PACE[®]-X rig averages a three-day rig move and a 2.3-hour walk/skid time between wells. The modular design minimizes components for faster rig-up and rig-down over distances.

- **Omni-directional walking system** allows a rig to skid 120 feet in x and 25 feet in the Y direction, with the option to extend increase wells per pad
- **Shakers ride on rig**, eliminating time and HSE exposure of handling flowline
- **Choke manifold mounted on the rig floor** moves with the rig when skidding
- **BOP trolley system** streamlines batch drilling and reduces flat time when testing and handling the BOP and when skidding
- **Fewer plugs and cables** due to split VFD design and distributed power systems reduce rig-up/rig-down time

X-Series Fleet Specifications

<i>Feature</i>	PACE-X
Drawworks	2,000 HP Minimum 3,000 HP Available
Mast Rating	800,000 lbs Minimum 1,000,000 lbs available
Setback Capacity	750,000 lbs
Substructure	Box-on-Box Side-Saddle [®] Structure
Walking Capacity	Walking System 120 ft Minimum – More Available
Top Drive	500 Ton AC 51,400 – 65,000 ft/lb Options Available
Engines / Generators	4 x 3512 With 1,365 kw Generator
Mud Pumps	3 x 1,600 HP AC 7,500 psi Mud Pressure
Pipe Handling	Remote Operated Wrench – 80,000 ft-lbs minimum – Higher Torque Models Available TM100 and TM120 Available Remote Operated Hydraulic Catwalk Rotating Mousehole
